

28th November 2011

Dear Parents,

Proposed Girls' Maths Club

As part of our work to promote maths we are seeking ways to raise girls' interest and confidence in the subject. We are proposing a girls' only Maths Club which will take place after school and be led by Mrs Barnett. It will be open to all age groups from Y1 upwards and Mums are also invited.

The club will run from the week commencing 9th January to February's mid-term break (week commencing 13th February) and last for an hour; 3.20pm to 4.20pm. There is a choice of possible days and I will go with the one which suits the majority of people. Please refer to the slip below.

We felt that working towards something 'real' would motivate the group, so we will work on organising a disco which we will run on the week following the holiday week i.e. week commencing 20th February. The most likely date is Friday 24th February. We will work on the maths involved in the hiring of a disco, prices for entry, popcorn etc, timings, costs of publicity, numbers of people involved, surveys of pupil requirements – there will be something for all ages and abilities.

Please fill in the slip below to indicate interest.

Yours sincerely,

Mary Barnett

My daughter _____ in year _____ would like to take part in the Girl's Maths Club.

My preferred day is Monday/ Tuesday (please circle).

I would/ would not like to join in too.

Signed: _____ (parent/carer)
